PROFILE

I'm a digital concept artist who thrives on designing unique and expressive characters that tell their own stories. I love the creative process of exploring personalities, backstories, and visual details that make each design stand out.

Alongside this, I love scriptwriting and story writing for animation, where I get to craft engaging narratives and bring characters to life through dialogue and storytelling. For me, it's all about connecting with an audience and creating worlds that feel alive and meaningful.

WORK EXPERIENCE

■ Freelancing

Digital painting artist

- Worked for many clients as per their requirements for digital art, caricatures and character designs.

■ In-house Projects

Script writing and graphics

- Worked on a Documentary 'Lost Leaves Of Kargil' in pre-production as a script writer.

■ Set-Designing

Designed multiple sets for college drama competitions like

Purushottam and Firodiya Karandak
and won best set in 2019 for
'Andhaar' drama.
